

# International Contractor Payments

With our International Contractor Payments feature, it's easier to hire and pay your global talent.

## **Streamline payroll processing with consolidated tools**

Consolidate the way you pay U.S.-based full-time and part-time employees and domestic and international contractors into one seamless experience.

## **Pay your international contractors accurately**

Avoid using multiple systems or manual workarounds that can lead to costly payment errors. Support contractor payments in the same tool as the rest of your payroll.

## **Expand your access to international talent**

Hire the right talent for your company, at home and abroad. With Justworks PEO, growing your global team is easier than ever.

The International Contractor Payments feature allows Justworks PEO customers to pay contractors in multiple countries, now giving you access to international talent for your business needs. With this feature, customers can manage their international contractor payments in the same tool as their domestic contractors and employees. Hire more quickly, save time and money, and bring on the best talent at home and abroad.

## Which countries are International Contractor Payments supported in?

International Contractor Payments is currently supported in 28+ countries, including Canada, India, and the U.K., but we have plans to expand to more soon! For a full updated list of available countries, visit our [Help Center](#).

## What does it cost?

All Justworks PEO customers have access to international contractor payments included in their plan, with no upfront or monthly fee. You'll be able to view the exchange rate on every transaction, which has our operating costs baked in. This exchange rate is variable and depends on several factors, like how much money is being sent, where it's being sent to, and the currency being used.

## When will my contractor receive their payment?

Contractors will receive their payment in a matter of days. When sending your payment within Justworks, you'll see an estimate of when your contractor can expect their funds. The processing time depends on the country your contractor is located in. In the U.K. and Canada for example, a typical timeline is approximately 5 business days.

## Is International Contractor Payments available for Justworks Payroll customers?

Currently, International Contractor Payments is not available to Justworks Payroll customers.
